Yesterday's Results.

Paducah 6, Danville 2.
Mattoon 6, Vincennes 2.
Cairo 6, Jacksonville 4.

Today's Schedule.

Paducah at Jacksonville.
Cairo at Danville.
Vincennes at Mattoon.

Danville, Ill., August 30.—The Indians won a game. It was not a victory in the true sense of the word because the Haymakers were crippled, and badly crippled. With a badly crippled catcher behind the bat and pitchers working in the outfield, the Indians had a walk-over. Hits tallied and errors evened up, too.

The score: R H E
Paducah 6 7 3
Danville 2 7 3
Batteries—Miller and Downing; Guernsey and Ott.

Hoosiers Lose Again.

Vincennes, Ind., August 30.—The Hostlers made a brilliant finish of the series, taking the last game with ease. The scores were won fairly and by bunched hitting. McCarthy kept hits scattered.

The score: R H E
Vincennes 2 6 3
Mattoon 6 8 6
Batteries—Whitley and Mattison; McCarthy and Johnson.

Cairo Wins Again.

Jacksonville, Ill., August 30.—The Hashslingers took the last game of the series yesterday and look good for pennant winners. They are playing great ball and members of the team feel sure they will land the rag. It is "let us at them" with the Hashslingers and Hoosiers, and each game when the two teams come together will mean a double victory for the winner. In yesterday's game error-making featured, but Cairo hit the ball hard and often enough to have won the game several times.

The score: R H E
Cairo 6 11 5
Jacksonville 4 5 6
Batteries—Johnson and Quless; Akers and Lotshaw.

Dope.

Cairo looks good for the pennant, and the sister city should extend a glad hand to the tail enders for the sound thrashings administered the Hoosiers. The Hoosiers go home with the Hostlers to begin a series of games there and it is more than probable the Hostlers will keep winning. The pennant is gradually slipping away from the Hoosiers and there is walling and mourning in Vincennes. The Hostlers are playing star ball and had the team been what it is now at the first of the season, the Hostlers would probably be at the head instead of the bottom of the percentage column, this according to the dope in the Vincennes papers.

The habit of losing has been so strong with the Indians that the fans were surprised to hear of them winning a game.

Theatrical Notes

King of Tramps.

Mr. Victor Faust, who plays the title role in "A King of Tramps," which will be at The Kentucky Labor day matinee and night, is a comedian of wide reputation. He was connected with Hoyt's productions for many seasons, and is known as a good entertainer. He has made a specialty of character work and in this particular part with his quaint sayings, singing and dancing has made a hit. He is supported by a clever company of comedians.

"On the Bridge at Midnight," which is to appear here for matinee and night Saturday, is a reproduction of the Jack-knife style of draw-bridge and is equal to the expectation aroused by its fame and all will

The river is on a stand here now with a stage of 11.2. Weather clear and warm and business at the wharf fair.

The Kentucky will arrive out of the Tennessee river tonight and lie over until Saturday evening when she starts for the return trip to the same river.

The Savannah will leave St. Louis for the Tennessee river Friday evening and arrive here Saturday night. The Charles Turner passed out of the Tennessee river with a large tow of ties today.

The Jim T. Duffy arrived out of the Tennessee river today with ties for the Ayer-Lord Tie company. No ties are handled by the railroads out of Paducah, except those cut in the surrounding country and for their own use. As nearly all ties are shipped north of the Ohio river, to ship them from Paducah would add the cost of crossing the river so the tow boats carry their tows to Metropolis or Joppa. It would be a valuable item in the city's freight shipment if they could be handled through here but unless shipments are made south, the city is at a hopeless disadvantage to get any of the business.

The City of Saltville will arrive out of the Tennessee river Saturday morning on the return trip to St. Louis.

Mr. Lee Rhodes, first clerk on the Dick Fowler, has returned from a vacation trip to Washington, New York and other eastern cities.

Mr. Dick Willis, second clerk, filed his position while he was gone, and Tom Willis of Metropolis, acted as second clerk.

Barges for both the West Kentucky Coal company and the Ayer-Lord Tie company are being repaired at the ways. Four are taken out at one time. Six have been repaired to date, caulking being the principal item.

At the dry docks the Scotia rapidly is assuming shape as a new boat and the Henrietta will have a new hull.

"In twenty minutes a boat could be loaded so that you couldn't open a door," said a wharfbat officer this morning. "I don't mean that so much freight could be loaded in that time that the doors could not be opened. By careless arrangement of a boat's freight, too much strain would be put on one place and the boat would be pulled out of shape. The mate's duty is not to drive the rousters. His art is to know how to load a boat so that the strain from the freight will be equally distributed and so that when part is removed that balance still will be kept. The old wharfbat there, leaks because there is no freight in it. If there were 500 barrels of salt in it it wouldn't leak a bit. The bal-last would hold it together. You've noticed the long chains on a steam-boat running over the boat on each side from one end to the other. They are to hold the boat together and if the boat is loaded right the chains will be drawn tight. An empty boat will soon get so out of shape that the oakum will fall out."

A Memphis dispatch says: The towboat Sprague on her trip up the river is breaking all previous records. This mammoth boat went up

at 3 o'clock yesterday, having 62 pieces in the tow. This is the largest tow ever taken up the river by a single boat at one trip. The boat had in its tow 46 coal boats, 12 barges and 4 fuel flats, making the grand total of 62 pieces, the largest by far that was ever attempted before.

A rush of wholesale pearl merchants from New York to the Wash-bash, Mississippi, Ohio and western rivers has taken place in the last few days. One round, white pearl, weighing 63 grains, was bought several days ago by Maurice Brower, of 12 John street, and is said to be held at \$15,000, although it was sold by the original finder for 75 cents. The pearl came in a shell the size of a silver dollar and was taken out of the Mississippi river on the Wisconsin bank.

Says the Cairo Bulletin:
Frank A. Jones, national president of the Marine Engineers' Beneficial association, will be here on the 11th, 12th and 13th of September to meet delegates from Evansville, Paducah and Memphis. The marine engineers of Cairo are preparing to entertain Mr. Jones in a royal manner while here.

Official Forecasts.

The Ohio at Evansville, will continue rising during the next 12 to 24 hours, come to a stand, then fall. At Mt. Vernon, will continue rising during the next 24 hours. At Paducah, will rise during Thursday. At Cairo, will continue rising during the next 24 hours.

The Tennessee at Florence, will fall Thursday. At Johnsonville, will rise during the next 24 to 36 hours. The Mississippi at Chester, will fall Thursday. From below Chester to Cairo will continue rising during the next 24 to 36 hours.

GAVE UP HIS BRIDE.

Jackson Man Has a Harrowing Experience.

Jackson, Tenn., Aug. 30.—Runaway marriage Saturday arrested Saturday night, separated from bride, left state Monday. Such in brief is the way events crowded themselves into the life of Lee Ella, a loom fixer at the Bemis cotton mills. He eloped Saturday at Humboldt with Miss Pearl Lindsey, of that place, and they were wedded Saturday afternoon. The young people took the train for Jackson and were followed here by the irate father of the young lady. He had the young man arrested and went before a magistrate for trial in Maloesus. The bridegroom agreed with Mr. Lindsey, the father of the bride, that if he would stop the lawsuit he would give up his claim on the bride and leave the state. Mr. Lindsey and his daughter left for Humboldt, and it is understood that the young man has complied with his part of the agreement by shaking the dust of Tennessee from his pedal extremities.

FOR WORLD LAW ORGANIZING.

Members of American Bar Association Will Urge the Matter.

St. Paul, August 30.—Plans for the formation of an international association of lawyers will be outlined at the annual convention of the American Bar association which begins here tomorrow. The executive council, at a meeting this evening, took the matter up and probably will report favorably. A warm debate over the report of the committee on uniform insurance laws is expected. A minority report will be presented, taking issue with the general report, which construes insurance as interstate commerce. One question of prime importance to be discussed by the association is the creation of a United States court of patent appeals. A bill has been drawn up which will be presented to the association which it is generally predicted will be approved and steps taken to secure its passage at the next congress.

ODD TROUSER REDUCTIONS

The Odd Trousers Sale which has been in progress at our store for some time past, during which all our odd trousers have been offered at one-fourth off, is probably arousing more interest than any of our money-saving cut price sales, with the exception of the suit sale, as economical dressers recognize the opportunities it affords of making a new suit out of an old one by the addition of a pair of odd trousers. One-fourth off is a strong enough cut to satisfy most people, but if that does not interest you, by all means see the special lot of 150 pairs of fine trousers, former prices \$3.00 to \$8.00, now being offered for exactly

One-Half Price

These are fine cassimere, flannel and worsteds, formerly among the best in our store, but they had become slightly soiled from handling, hence the big reduction.
